

Business Unit Strategy Template 2023

International Travel Health Center
By Dr John Aigbonohan

- **A. Introduction to the visa medicals business:** Our visa medicals business aims to provide comprehensive medical examinations and tests for individuals seeking immigration visas. Our services are designed to meet the medical requirements of various countries, including those for employment, study, and family reunion visas.
- **B. Market opportunity and target audience in Nigeria:** Nigeria has a large and growing number of individuals who seek to travel abroad for various reasons. This creates a significant market opportunity for a visa medicals business that can meet the demand for reliable and efficient medical examinations and testing. Our target audience includes individuals of all ages and nationalities who are seeking immigration visas to travel abroad
- **C. Key objectives and goals of the business:** Our key objectives are to obtain and sustain the approval to join the Panel Clinics membership network for top 5 countries, provide top-quality visa medical services, build a reputation for excellence, and establish a loyal customer base. Our goals becoming the leading provider of visa medical services in Nigeria. We aim to achieve these objectives by investing in the latest technology and equipment, hiring highly qualified medical staff, and providing exceptional customer service.

Executive Summary (Contd)

- Our IME business plan will focus on how we will position to fill obvious gaps in the value chain of IME services delivery in Nigeria and cater for the immigrant population to the M5HWHG countries. Opportunities for other countries visa medicals
- Australia (AU), Canada (CA), New Zealand (NZ), the United Kingdom (UK), and the United States of America(US).

The purpose of the health requirement is to:

- ✓ protect the community from public health and safety risks
- ✓ safeguard the access to healthcare facilities and contain public expenditure on health care
- To complete the set-up an International Travel Center- *Complete range of Travel Health Services (IME Medicals, Vaccinations, Travel Health Advisory and Certification services)*
- Ikeja Adeniyi Jones
- **Investment of N175,400,000**
- **Revenue N120,720,558 Yr 1**
- **Net Profit Yr 1 N75,475,330, N141, 277,128 in Y2**

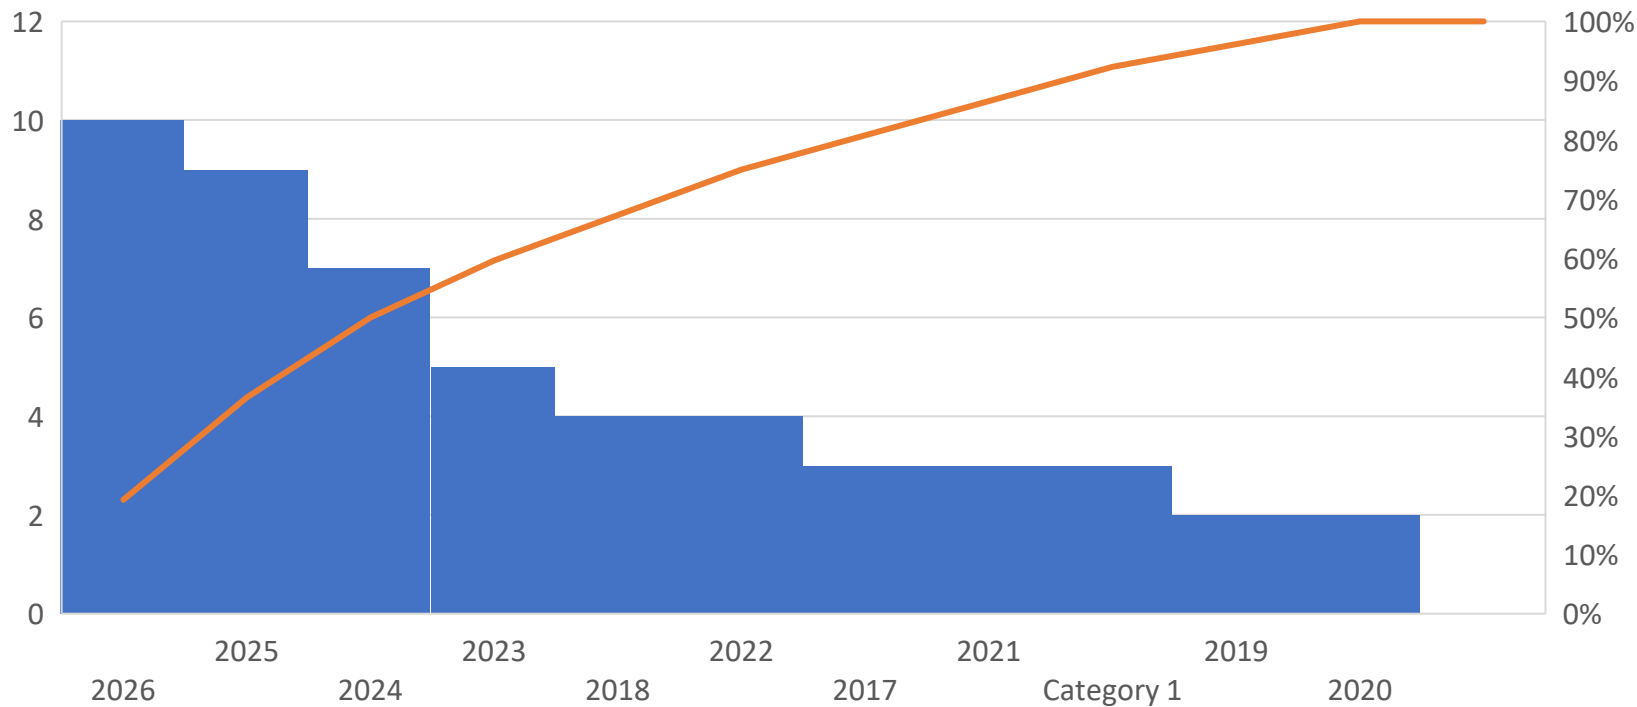

Product Range	Target Market
➤ Study visa applicants	UK , Canada, USA , Australia, New Zealand, Schengen, South Africa, Asia visa applicants
➤ PR/Family/Spousal visa medicals	UK , Canada, USA , EU visa applicants
➤ Work Visa applicants	UK, Canada, USA, Australia, EU visa applicants
➤ Vaccination for Immigration	Travellers to all countries
➤ Travel Health Services (Advisory, Public health Services, Travel Fitness Certifications)	Travellers to countries

Market Size Indicators:

- According to the Nigerian Immigration Service, the total number of valid visas issued in the year 2019 was 1,042,311. Around 64% of them had to do medical making the total number of medical visas issued in Nigeria in 2019 668,819. Around 20% of the medical study visas. The total market size for visa medicals in Nigeria is estimated to be around \$180 million.

Globally, over 50% of the population lives in urban areas today. By 2045, the world's urban population will increase by 1.5 times to 6 billion. City leaders must move quickly to plan for growth and provide the basic services, infrastructure, and affordable housing their expanding populations need

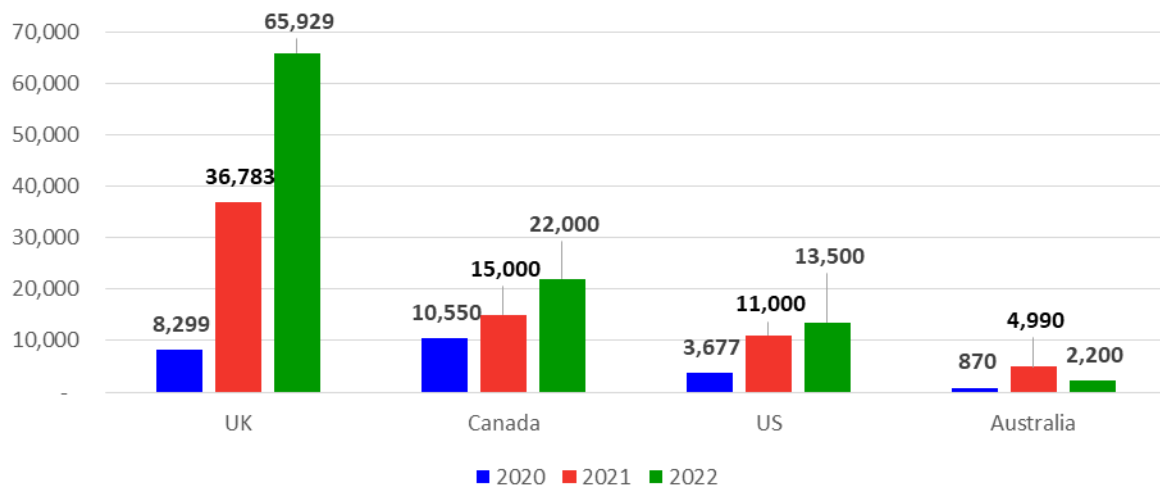

Visa applications in Nigeria soars

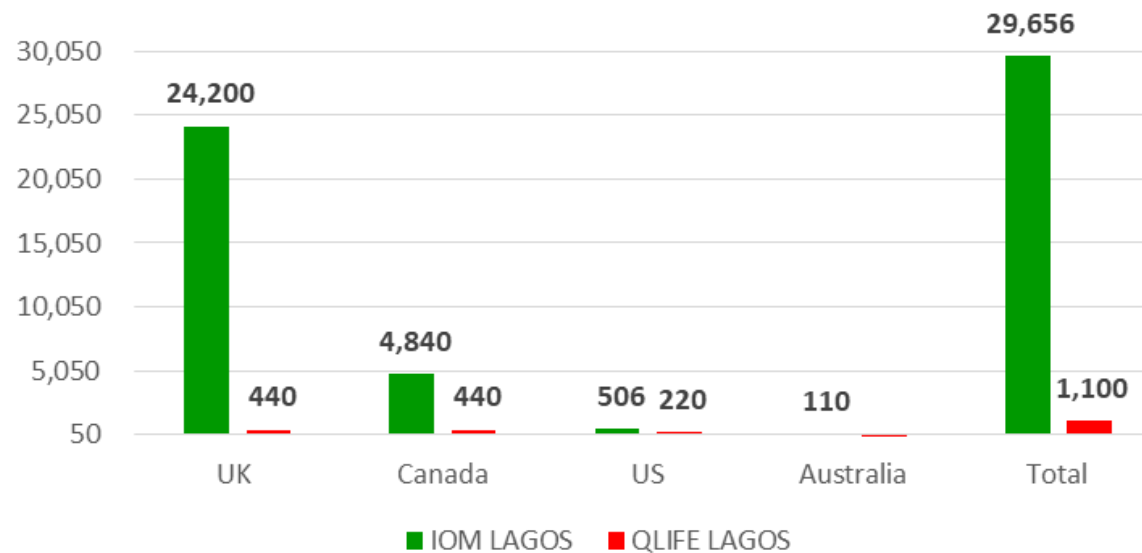

- The visa market from Nigeria is expected to experience a steady growth over the next five years, as reported by the World Tourism Organization (UNWTO) [1]. This growth is attributed to a number of factors, including the increasing number of online visa applications and the growing number of travelers from Nigeria. According to the Nigeria Immigration Service (NIS) [2], **the number of visa applications from Nigeria has increased from 1.4 million in 2017 to 1.7 million in 2020**. In addition, the number of online visa applications from Nigeria has also increased from 1.1 million in 2017 to 1.4 million in 2020 [3]. This is likely to further drive the growth of the Nigerian visa market from 2018 to 2025 for USA, UK, Canada, Australia and New Zealand.

Market Analysis- IME Case load in Existing Centers | Nigeria 2020 to 2022

No of Visas issued to Nigerian Immigrants to M5HWG Countries

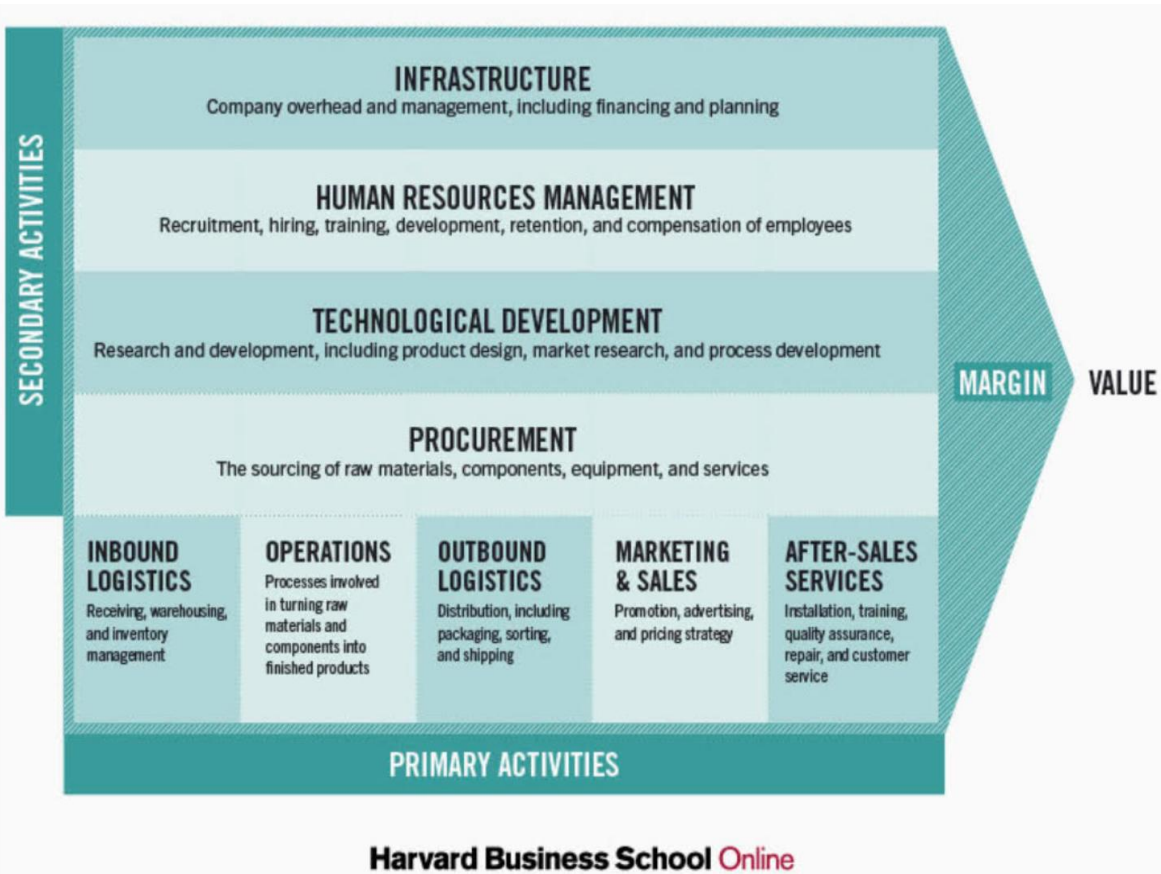

IME Clinics (Lagos) Case load Per Month in 2022

Market Analysis-Competition Overview

SN		Current Status	Country focus	No of cases per day	Dedicated IME component	Appointent booking	Result/Certificate
1	Consultant Practice	Still actively conducting IMEs	UK	Not ascertained	Xrays	Website forms, Customer Service hotline	Certificates issued Results of exam are reviewed by remote radiologists/Pathologists
2	St. Nicholas	Still actively conducting IMEs	UK	Not ascertained	Xrays	Website forms, Customer Service hotline	Certificates issued Results of exam are reviewed by remote radiologists/Pathologists
3	Qlife	Still actively conducting IMEs	UK, US, Canada	Daily UK 19 (418 in Feb) US 19 Canada 19	Xrays, Blood, Urine Tests, Vaccination	Website forms, Customer Service hotline	Certificates issued Results of exam are reviewed by remote radiologists/Pathologists
4	IOM	Still actively conducting IMEs	UK, US, Canada	UK (800 to 1200) Canada (150-220) US (10-25) Australia (2 to 5) South Korea and other countries occasionally	Xrays, Blood, Urine Tests, Vaccination	Xrays, Blood, Urine Tests, Vaccination	Certificates issued Results of exam are reviewed by remote radiologists/Pathologists in NAIROBI, KENYA

Value to Customer –International Travel Health Center

PROBLEMS VS PRODUCTS

More visa applicants than available IME panel clinic appointment slots per time

Commission and approved Panel Clinic for IMEs in Lagos

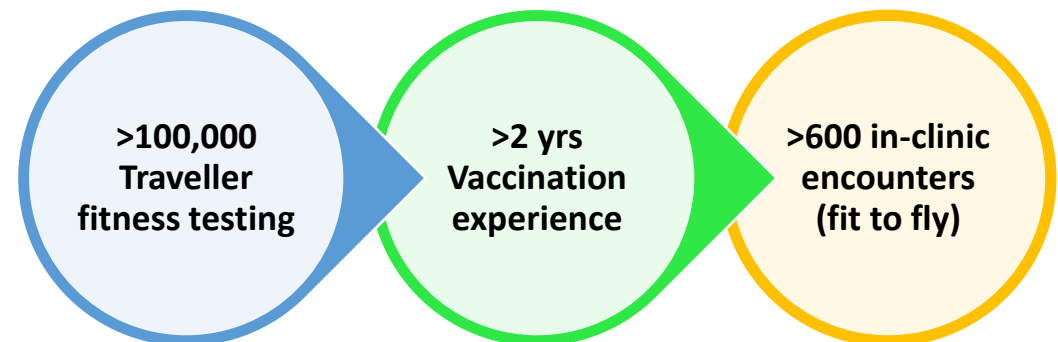

Very long waiting times at existing IME centers

Automation/Integrated Tech /biometrics/Queue mgt HMS

Prolonged waiting time for results after completing medicals

Optimize HMS to achieve real time reporting by remote specialists

CAPACITY

Five Forces Analysis of the IME industry in Nigeria

The barrier for entry is high due to the mandatory requirements and process of approval which is known to be complex

New Entry

Three major factors cause the barrier of entry:

- * IMEs services require high level approval from consulate of country locally and international
- * IME clinic membership approval process is rigorous and capital intensive
- * Prices charged by approved are not controlled by Consulates, but monitored

Substitution

Substitutes to IME product are

Minimal risk of substitution because entry it is highly controlled by mandatory requirement to immigration

Supplier

Suppliers- power is low
The Laboratory equipment/consumables suppliers are easy to find .

Buyer

The buyer power is low because there are few providers and satisfaction with TAT is dependent on TAT of the final approval for result release by the Country approval centers

Competitive Rivalry

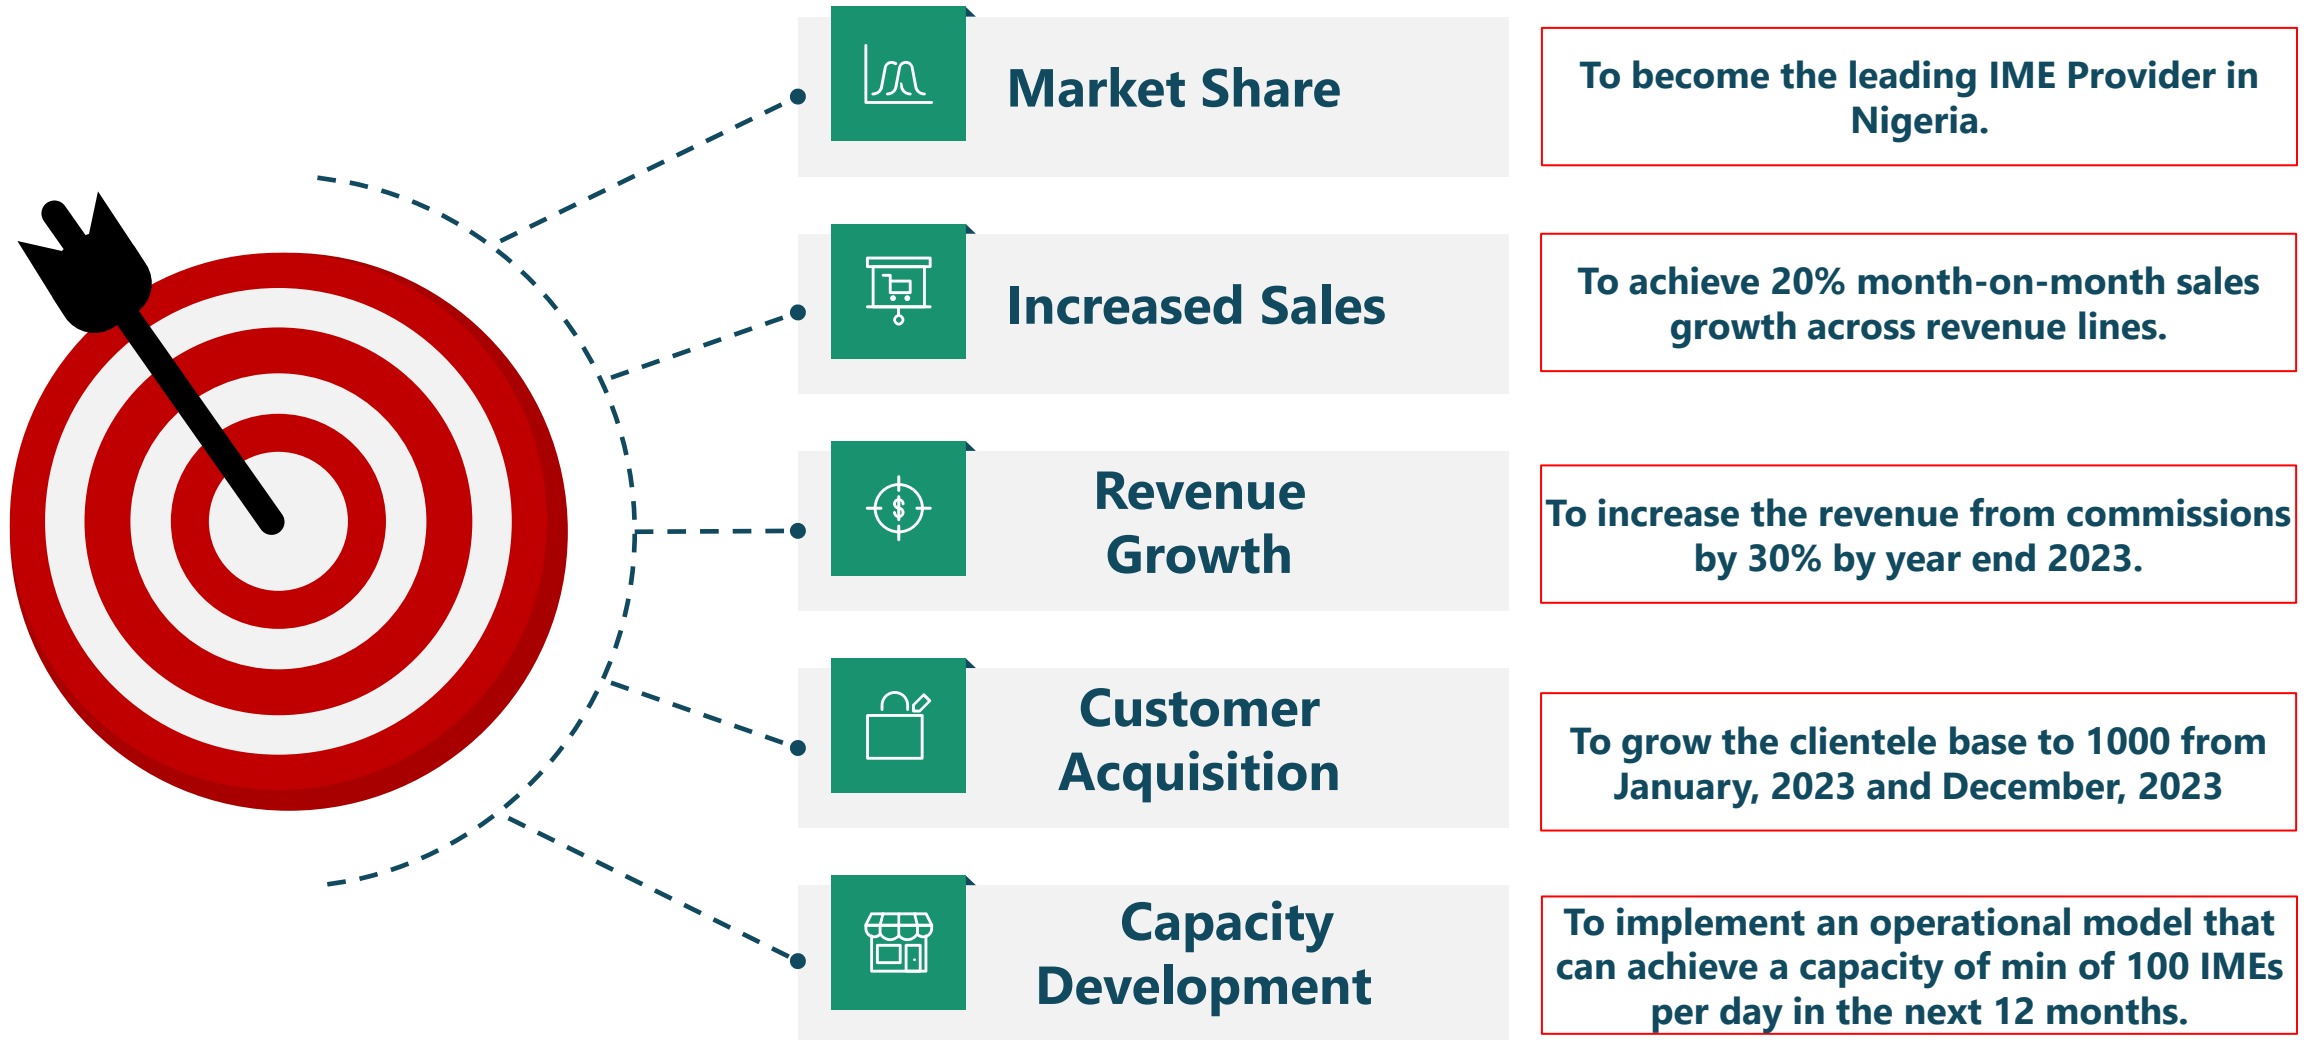

The industry has few players due to high level approval requirements, it poses minimal competitive space.

Although customers can choose to test at any IME center of their choice The rivalry is driven by Embassy website information, capacity TAT to customer and customer service

Client Categorization

Client Category	Client	Divisions	Level of Demands
Tier 1	UK, Canada	➤ Study visa applicants ➤ Work Visa applicants ➤ PR/Family/Spousal visa applicants	Mandatory medicals (TB, General) Additional investigations for females Renewal of medical within 6 months
Tier 2	USA, Australia	➤ Study visa applicants ➤ Work Visa applicants ➤ PR/Family/Spousal visa applicants	Vaccinations Mandatory medicals
Tier 3	New Zealand	➤ Study visa applicants ➤ Work Visa applicants ➤ PR/Family/Spousal visa applicants	Mandatory medicals (TB, General)

Business Objectives –ITHC

The Business Model for International Travel Health Center

Key Activities 	Key Partners 	Value Proposition 	Customer Relationships 	Customer Segments 
• Sales (Acquisition of clients) • Visa medicals platform operation • Migration health advisory & documentation • Migration Health Stakeholders engagement • Medical diagnostics operations • Infectious disease reporting and control • Vaccination	• Embassies /Consulates • Travel agencies • Immigration consultancy	• High-end technology for registration and queue management to shorten waiting time to < 2hrs • Operational model incorporating multiple testing points to facilitate growth in volumes • Facilitated IME appointment booking process • Integrated systems to achieve real time reporting and result release	• Dedicated website • Responsive live chat and call center • Self-booking Service • Excellent customer service	Target Client segmentation • Study Visa applicants • PR Visa applicants • Family/ Spousal visa applicants • Work visa applicants
	Key Resources		Channels 	
	• World class Intl Travel Health Center • High-end technology/ automation of operations for efficiency & competitive TAT • Highly-skilled personnel (Physicians, Radiologists, Laboratory Scientists) • Strong financial base • Access to Migration health stakeholders network		• Embassy website • Travel Agencies • DMC	Growth • Organic Growth in in sync with visa application/ approvals increase • Sustained Panel Clinic membership • Partner Network referrals
Cost Structure 	Revenue Streams 			
• Direct Cost: technology development and maintenance, Marketing, Diagnostics operations, Consumables , Staffing, Equipment • Indirect Cost: Contributions to corporate	• Charges for IME medicals • Charges for vaccination			

Competitor Analysis

	Medbury	International Organization For Migration (IOM)	Q-Life Family Clinic	St. Nicholas Hospital
Overview	Medbury is a niche organization An	A division of bigger migration control commission UN affiliation Member of the Panel Physician and Clinic network in Nigeria for M5HWG countries and more	Member of the Panel Physician and Clinic network in Nigeria for M5HWG countries and more.	Member of the Panel Physician and Clinic network in Nigeria for UK
Countries and embassy	UK, Canada, USA, Australia, New Zealand	US , UK, Canada, Australia, New Zealand, Other countries	USA, Canada, UK	UK
Competitive Advantage	- Facilitated IME appointment booking process - Additional capacity for IMEs in Nigeria to cater for the backlogs and high demand - High-end technology for registration and queue management to shorten waiting time - Integrated systems to achieve real time reporting and result release	Popularity for Approval from M5HWG countries for many years Lower prices compared to Qlife and St. Nicholas	Other patient care services	Other patient care services
Target Market	Travelers, travel agencies, Corporates, Immigration applicants	Immigration applicants	Immigration applicants	Immigration applicants
Partnerships	Local & International	Local & International	Local & International	Local & International
Marketing Strategies	Advertisement & promotions, Social Media, CSR, Cost reduction through economies of scale	High priority locations, Advertisement & promotions, Social Media, Formidable Sales and Marketing Team	Stocking up pharmacy shelves with no upfront payment required, Social Media	Advertisement & promotion, Social Media
Technology Leverage	Website, Machine operated Biometrics collection, Hospital Mgt system, App for result release	Website	Website	Website
Pricing	Competitive	Competitive	Highest in the industry	Minimal competitive price point
Panel physician	1 center initially, Spread approval to other centers within 1 year	2 centers with large scale operations		Vast logistic resources

ITHC – SWOT Analysis

Strengths

- Strong reputation for providing high-quality visa medical services
- Experienced and highly qualified medical staff
- Comprehensive range of medical examinations and tests
- Fast turnaround times and efficient operations
- Advanced technology and equipment
- Personalized customer service and support
- Over 50,000 travels medical screening encounters

Weaknesses

- No approval for IME services
- Lack of awareness of services among potential customers
- Dependence on a small number of large customers
- No in-house staff with previous hands-on experience with IME center practices

Opportunities

- Growing demand for visa medical services in Nigeria
- Opportunity for expansion of facility and services at existing centers
- Overwhelmed capacity of existing IME centers
- Increasing visa application entries
- Multiple countries with medical requirements for immigrant visa processing

Threats

- Intense competition from established players and new entrants
- Stringent regulations and standards for visa medical services
- Economic uncertainty and instability in Nigeria
- Increasing pressure to reduce costs and improve efficiency
- Changes in government policies and procedures for visa medical services

Unique Selling Points

Marketing & Sales Plan

Customer Segment	Target Tiers	Channel Partners	Online Strategy	Offline Strategy/PR	Pricing Strategy	Sales Strategy
Study Visa	Tier 1	➤ Consulates/Embassy Website ➤ Educational tourism Agents	Obtain approval Panel Clinic membership Website SEO Optimization	Covene a meeting of key stakeholders in Border /Travel health regulation to show capacity for IME Connect and actively participate in Travel health/ Public health/Cross Border forums PR to Travel agencies	Competitive pricing, Price compliance	Retain Clinic approval/membership Strategic identification and profiling of target clients (individual & channel partners)
Family (PR) visa	Tier 2	➤ Travel Agencies ➤ Consulate/ Website	Obtain approval Panel Clinic membership	PR to Travel agencies	Competitive Pricing	Affiliate , Strategic partner
Work Visa	Tier 1 and Tier 2	➤ Travel Agencies	Website SEO Optimization	PR to Travel agencies	Price Compliance	Affiliate , Strategic partner

**Panel Clinic with Technology
Enabled Hospital Management
System**

**Technology for fast tracked Pre-
Analytical stages
(Biometrics/Registration/ Queue Mgt)**

Multiple testing/x-ray points

**Time-saving sample collection &
processing equipment**

In-house Physicians/ Specialists

**Integration of internal & remote
reporting systems**

Prototype ITHC –Dubai

- Immigrant visa applicants who are authorized to attend visa medical screening exercise visit ITHC website –HAP ID required
- Applicants book an appointment to attend ITHC center and obtain a booking reference
- At the center, applicants under-go biometrics registration and checked in for appropriate medicals
- Application journeys through the medical testing stations via a digital queue management system
- Applicant has access to an online feedback/customer experience center to “complain about issues with waiting time or quality of treatment at the center while onsite
- The Management systems are integrated with remote specialist and approval centers for real time reporting and improved TAT
- Applicants will have access to convenient online payment platforms
