1.0 INTRODUCTION

The Finance SOP is a set of guidelines and procedures that define the standard processes for handling financial transactions, ensuring consistent, accurate, and transparent financial activities that comply with laws and regulations. It covers budgeting, financial reporting, risk and cash flow management, minimising errors and fraud while promoting accountability and transparency.

2.0 PURPOSE

The purpose is to establish how to handle financial transactions consistently, accurately, and according to regulations. This promotes transparency, minimises errors and fraud, and ensures strong financial controls.

3.0 SCOPE OF ACTIVITIES

The scope of activities for the Accounts SOP includes all financial transactions related to the organisation's accounts, including but not limited to accounts payable, accounts receivable, payroll, general ledger management, and financial reporting. The SOP aims to establish a standardised process for all accounting activities, ensuring accuracy, transparency, and compliance with applicable laws and regulations. The activities covered under the SOP also include the maintenance of financial records, the preparation of financial statements, and the reconciliation of accounts to ensure that all financial information is up-to-date and accurate.

4.0 JOB ROLES FOR THE DEPARTMENT

4.1 ACCOUNTANT

- Maintain general ledger accounts for all financial transactions in the appropriate accounts within the company's general ledger.
- Prepare financial statements such as income statements, balance sheets, and cash flow statements, that summarise the company's financial performance and position.
- Perform journal entries to formally record financial transactions, analyse transactions, and determine the appropriate accounts to debit and credit.
- Reconcile bank statements to ensure that the company's bank records match its financial records; any discrepancies are to be investigated and resolved.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 3 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

- Analyse financial data to identify trends, assess the company's financial health, and support informed decision-making.
- Close the accounting books by finalising all transactions and preparing reports for that period.
- Defending the budget to obtain management approval, using past performance indicators as parameters

4.2 ACCOUNTS PAYABLE CLERK

- Process vendor invoices by reviewing and approving invoices from vendors for payment, ensuring they are accurate and complete.
- Schedule and make timely payments to vendors according to the company's payment terms.
- Maintain accurate accounts payable records of all outstanding payments owed to vendors.
- Resolve vendor discrepancies found in invoices.
- Manage supplier/vendor relationships.
- Contribute to the month-end closing process by ensuring all accounts payable information is accurate and up-to-date for month-end closing procedures.

4.3 ACCOUNTS RECEIVABLE CLERK

- Create and issue customer invoices for goods or services purchased.
- Collect payments from customers, following up on overdue invoices, and processing customer payments.
- Maintain accounts receivable records of all outstanding payments owed by customers.
- Respond to customer inquiries about invoices, including questions about amounts due or payment methods.
- Investigate and resolve customer billing issues.
- Contribute to the month-end closing process to ensure all accounts receivable information is accurate and up-to-date for month-end closing procedures.

4.4 DEPARTMENTAL ORGANOGRAM

The departmental Organogram showing the reporting line, is seen attached below.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3

5.0 FINANCIAL MANAGEMENT

To ensure clear policies and procedures are available to guide those who manage the financial systems within the hospital. The Chief Finance Officer (CFO) shall arrange for the provision of the necessary accounting functions and shall ensure that financial management is conducted within the bounds of company financial procedures and policies.

5.1 GUIDELINES

- The Chief Finance Officer is in charge of coordinating all budget-related activities of the departments.
- The Chief Finance Officer collates data from the various sections that provide the primary estimate of OPEX/CAPEX (where appropriate) unit requirements within the financial year.
- All financial matters in the hospital are handled according to the laid down policies and procedures of the company. The budget is defended to obtain management approval, using past performance indicators as parameters. Expenditure is closely monitored to ensure that the units keep within their approved budget.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 5 of 22

Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

5.2 GUIDELINES FOR FINANCIAL MANAGEMENT ACCOUNTING FUNCTIONS

- As a rule, SPDC/SNEPCO staff and any other personnel included within the periodic Eligibility List do not pay for healthcare.
- Third parties are however billed through a formalised process as follows:

Billing System

- All third-party attendants are billed for whatever treatment is provided to them.
- All such patients' folders are kept for easy check while preparing such bills.

5.2.1 Communication of the Fee Structure and Systems for Payment to Third Parties and the Handling of Queries Relating to Fee Payments

- All queries arising from issues related to fee payment are referred to the Finance Dept. for resolution through the Finance Officer/ heads of department and signed off by the CFO.
- Staff shall not collect incentives or payments from patients. Any such act is seen as unethical and a conflict of interest. Such staff would be subject to the company's disciplinary procedures where patients are referred to an external site for specialised care not available in the hospital, measures are put in place to avoid compromise of patient care relating to financial incentives and payment arrangements. Such referred centres would have had a documented agreement on terms of payment before patients are referred to them.
- Where an ad hoc arrangement has to be made, the Finance Dept. will arrange for payment. Alternatively, the patient may be advised to pay and get reimbursed by the company.
- In the unlikely event that a conflict does occur in terms of incentives or payments either due to unethical practice by the referred centre or a delay in payment to the referred center, this would be escalated by the monitoring company representative and/or the patient/family to the CFO. The CFO then refers all queries arising from issues related to fee payment to the Finance Officer for resolution.
- An audit team will be sent out to investigate the claims through a formalised process. The company shall then respond based on the recommendations from the audit findings. Consequence management shall be applied as appropriate.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 6 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

5.3 THE ADMINISTRATION OF FEES COLLECTED

All fees collected from third parties are paid into the company account through an approved process.

5.4 THE ADMINISTRATION OF PAYMENTS MADE TO CREDITORS/ CONTRACTORS /INVOICES

- Invoices received from Contractors by contract sponsors are registered in the ERP system in respect of services or work rendered.
- The Contract Sponsors are responsible for thorough checking of all Invoices before they are coded into the ERP system and thereafter forwarded to the Head of Depts. for approval.

5.5 PAYMENT OF CREDITORS /INVOICES

- Invoices received from Contractors by contract sponsors shall be registered in the ERP system in respect of services or work rendered.
- The Contract Sponsors shall be responsible for thorough checking of all Invoices before they are coded into the ERP system and thereafter forwarded to the Finance Dept.

5.6 FINANCIAL RECORD KEEPING AND REPORTING AND SECURITY OF FINANCIAL INFORMATION

- Financial records and information in paper format are placed in Files kept under the custody of the Finance Officer/CFO.
- Financial records or information in the electronic medium are kept in the Finance Dept.'s Document Domain libraries.
- Only those who need to have access can get the files or have access to the electronic files.

6.0 PAYROLL PROCESSING

6.1 PAYDAY SCHEDULE

The standard payday is the 27th of each month; however, if the 27th falls on a weekend, the payday is adjusted to the preceding business day.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 7 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

6.2 HR DATA COLLECTION AND SUBMISSION

The HR department is responsible for gathering and updating employee information, encompassing new hires, terminations, leaves without pay, etc. This information is then sent to the finance team.

6.3 LOCUM TIME SHEET SUBMISSION

All locum timesheets must be signed by their respective supervisors and submitted to the finance department no later than the 23rd of each month.

6.4 TIMESHEET COMPLIANCE REVIEW

The finance officer meticulously reviews, and cross-checks all submitted time sheets to ensure compliance with company policies and regulations.

6.5 DATA ENTRY AND CALCULATION

Upon completion of the compliance review, the finance officer enters locum data into the payroll file, considering overtime and other variable pay components for staff.

6.6 FILE REVIEW AND EXECUTIVE SUMMARY

Post payroll completion, the finance officer sends the file to the management accountant for a comprehensive review and the creation of an executive summary. This summary is subsequently forwarded to the CFO.

6.7 APPROVAL WORKFLOW

After the CFO's approval, the finance officer uploads the payroll onto GAPs (or the relevant system). The payroll file then queues in the CFO's and CEO's workflow for their final approval.

7.0 PROCEDURE FOR ACCOUNT RECEIVABLES

This SOP is designed to ensure efficiency and clearly define the steps in the processing of account receivables, identify the units involved in the process, and ensure completeness, and correctness of invoices submitted to SPDC, and timely turnaround time to payment to the hospital for reimbursement.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 8 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

7.1 RECEIVABLES SUMMARY

The Hospital has the following revenue lines for which invoices are issued to SPDC for payments:

- Capitation
- Pharmacy Recharges and Laboratory Recharges
- Teleradiology

The Finance department has the responsibility of raising and sending invoices to vendor(s), and following up with the payments in line with the agreed terms.

On the side of the hospital, the following staff is involved in the receivable cycle:

- Pharmacy Lead (PL) for Pharmacy Recharges
- Radiology Lead (RL) for Radiology Recharges
- Laboratory Lead (LL) for Radiology Recharges
- Senior Accountant (SA)

7.1.1 Capitation

- The amount for capitation is fixed per SPDC staff (and dependants), and invoices are issued and sent in advance of every quarter, i.e. the capitation for the Jan – Mar 2024 quarter will be issued in the first week of Jan 2024.
- The (SA) calculates the total capitation for the quarter by multiplying the agreed rate with the total number of SPDC staff per month, per quarter.
- The invoice is generated by the SA based on the calculation in (a) above.
- A proforma Invoice is generated, signed, and sent to the following designated SPDC email addresses:
 - gloria.adim@shell.com
 - bimpe.oyeluyi@shell.com (copied)
 - o.daramola2@shell.com (copied),

and await the Service Entry (SE) sheet (a document summarising and confirming the approval of the invoice sent) from SPDC.

- Upon receipt of the SE, the invoice is then re-dated (to reflect a day after the SE), attached to the SE, and sent to: SPDC-MM-Invoice-Processing@Shell.com

0	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 9 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

- f. Payment is made by SPDC 20 days after receipt of the invoice, and payment advice is sent to the hospital.

7.1.2 Pharmacy & Laboratory Recharges

Drugs dispensed to SPDC staff/patients referred by the GP for specialist care at the hospital by SPDC are not covered by capitation and as such, the resultant costs are reimbursable to the hospital by SPDC. The same applies to lab tests, internal and external, and radiology diagnostics. Both PL and LL initiate the process for their respective recharges as follows:

- The leads compile all the reimbursable drug prescriptions and lab tests and forward the schedules to SPDC for reconciliation.
- Both parties will agree at a joint position.
- Upon conclusion of the reconciliation, proforma invoices will be raised, signed, and sent to SPDC by the SA (based on the amount jointly agreed by the hospital leads and SPDC).
- The signed proforma invoices are sent to:
 - gloria.adim@shell.com
 - bimpe.oyeluyi@shell.com (copied)
 - o.daramola2@shell.com (copied),

and await the Service Entry (SE) sheet (a document summarizing and confirming the approval of the invoice sent) from SPDC.

- Upon receipt of the SE, the invoice is then re-dated (to reflect a day after the SE), attached to the SE, and sent to: SPDC-MM-Invoice-Processing@Shell.com
- Payment is made by SPDC 20 days after receipt of the invoice, and payment advice is sent to the hospital.

7.1.3 TeleRadiology

As part of the treatment cycle, SPDC requires that there be a second reading of results from

- X-ray
- CT Scans
- MRI, and
- Mammogram done by the hospital.

0	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 10 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

These second readings are usually carried out by an external diagnostic center, which charges the hospital fees for every referred test read. The cost of these readings is then recharged to SPDC at cost.

Note: The diagnostic center, Accuread Radiology, charges the hospital in USD, and the hospital invoices SPDC in USD.

- Accuread Radiology sends a list of all referred cases for which second readings were done to the (along with the invoice) RL.
- The RL reconciles the list (and invoice) with the hospital's register for all referred cases sent to Accuread and sends confirmation to the Finance department.
- Finance raises a proforma invoice (and a summary of activity as a support document) based on the confirmation. The proforma invoice is sent to:

➤ gloria.adim@shell.com

➤ maureen.williams@shell.com (copied)

➤ o.daramola2@shell.com (copied),

and await the Service Entry (SE) sheet (a document summarizing and confirming the approval of the invoice sent) from SPDC.

- Upon receipt of the SE, the invoice is then re-dated (to reflect a day after the SE), attached to the SE, and sent to: SPDC-MM-Invoice-Processing@Shell.com
- Payment is made by SPDC 20 days after receipt of the invoice, and payment advice is sent to the hospital.

8.0 PROCEDURE FOR ACCOUNT PAYABLES

To establish a clear and standardised set of procedures for the Finance Department, specifically focusing on Payables, Receivables, and Payroll Processing, ensuring efficiency, accuracy, and compliance.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 11 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

8.1 PAYABLES PROCESS

8.1.1 External Consultants

- Invoices from external consultants are received through two channels: via email or hard copy document.
- All supporting documentation such as days of consultation, name of patients, and type of procedure (if any) is attached to the invoices.
- The Finance Officer (FO) performs an initial review to ensure the completeness of the invoice, i.e. verifying that all necessary details are correctly provided.
- The invoice, along with supporting documentation, is then presented to the AMD for verification and approval.
- The FO then enters all relevant details from the approved invoice into the invoice database and on Xero (our accounting software)
- All invoices including the supporting documents are kept in a file readily accessible for the payment process.

8.1.2 Laboratory

- Upon delivery of reagents and other consumables, a member of Admin/Finance inspects all received items and ensures delivered reagents match the quantities outlined in the purchase order/invoice, and signs as confirmation.
- The Laboratory Manager reviews the invoice to ensure it accurately reflects the specifications outlined in the purchase order. Upon satisfactory review, she then signs and stamps (N.B. any invoice without the laboratory stamp will not be profiled for payment) on the invoice.
- The invoice is then sent to the FO where the approved invoice is then logged into the invoice database and the accounting software.
- Invoices from external diagnostic centres are received through email and are directed to the laboratory manager with the finance team in copy.
- The Laboratory Manager reviews and approves the external diagnostic center invoice if the services align with her records.
- The invoice is then sent to the FO who then logs the approved invoice into the invoice database.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 12 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

- All invoices including the delivery note are kept in a file readily accessible for the payment process.

8.1.3 Radiology

- Invoices from external radiology centres are received through email and are directed to the Radiology Lead with the finance team in copy.
- The Radiology Lead then reviews and approves the invoice.
- The invoice is then sent to the FO who then logs the approved invoice into the invoice database.

8.1.4 Pharmacy

- Upon delivery of drugs, a member of Admin/Finance inspects all received items and ensures delivered reagents match the quantities outlined in the purchase order/invoice and then signs as confirmation.
- The Pharmacy procurement officer reviews the invoice to ensure it accurately reflects the specifications outlined in the purchase order.
- The invoice is then sent to the FO who records the approved invoice into the database and the accounting software.
- All invoices including the delivery note are kept in a file readily accessible for the payment process.

8.2 PAYMENT PROCESS

Invoices: This procedure encompasses all payables if an invoice has been submitted. The steps apply as follows:

- Invoice due dates are systematically calculated as 30 days from the date of the invoice, adhering to the existing payment terms. Some have been negotiated to 45 days.
- From the latest invoice database, the CFO prioritises invoices to be paid usually based on factors such as due date, urgency, and available cash flow.
- Using the selected list, the FO prepares an online payment schedule, capturing all payments scheduled for a specific day. The schedule includes details such as vendor names, invoice

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 13 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

numbers, WHT deductions, net payment amounts, etc, and the designated bank account for each payment.

- The FO uploads the payment details onto the company's banking system (GAPs), ensuring accuracy and completeness.
- After the upload, the CFO reviews and approves the payments on GAPs.
- Upon CFO approval, the FO generates and sends the payment advice to the respective vendors, notifying them of the successful payment and providing relevant details.

9.0 PROCUREMENT/PAYMENT

This document describes the series of steps involved in Medbury Medical Services, Shell IA, Port Harcourt (MMS-Shell IA to acquire goods and services from external sources.). It is also to ensure that roles and responsibilities involved are clearly stated that the procurement process is transparent, and workflow is optimised in terms of performance.

9.1 Types of Procurement

9.1.1 Bulk Procurement

- Involves items with large quantities and/or services that require large or significant spending to be procured. Amount ranges from ₦50,001 and above
- Items or services involved must be invoiced or LPO raised.
- Final authorization and payments to be done in MMS Lagos Hq.

9.1.2 Piecemeal Procurement

- Involves recurring items or services that do not require a significant amount to procure. The amount ranges from ₦1 - ₦50,000
- Items or services may or may not be invoiced.
- Authorisation and payments will be made via the imprest system domiciled in the MMS-Shell IA Finance department.

Personnel/Depts/Units Involved are:

- Requesting Unit (RU), usually the team leads of various units.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 14 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

- Procurement & Supply Manager (SSM)
- Head of Accounts (HOA)
- Human Resources Manager (HRM)
- General Manager (GM)
- Chief Operating Officer (COO)
- Executive Assistant, Lagos (EA, Lagos)

Documentations required in the process is a combination of:

- MMS Requisition Form, or
- Memo
- Proforma Invoice or Quotation, and/or
- Email from the RU detailing every aspect of the items or services required.

9.2 Steps for Bulk Procurement

1. The RUs identify the need for item(s) or service(s).
2. The responsibility of contacting vendors for price, specification and brand confirmation rest with the RU.
3. The RU sends the request to the COO for approval with the following in copy as follows:
 - jaigbonohan@phia.medburymedicals.com (COO)
 - emmanuel.adebayo@medburymedicals.com.ng (PSM)
 - n.monye@phia.medburymedicals.com (HRM)
 - b.agbaffa@phia.medburymedicals.com (HOA)
 - fagbohunlu.charles@medburymedicals.com (GM)

This is done by completing the MMS requisition form along with a copy of the approved (proforma) invoice or quotations.

Note: The request details every aspect of the items or services to be procured

4. The COO and GM give separate approvals, notifying the EA in Lagos
5. Funding is then provided to the PSM to procure the requested items.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 15 of 22
Title: ACCOUNT SOP			
Reference: MAN-OCH/SHIA-ACC-001v1			Version: 1.0

9.3 Steps for Piecemeal Procurement

1. RU raises a request for items or services via and sends it to the COO with the HRM, and HOA in copy.
2. The HOA runs a check to confirm if the request is provided for in the budget.
3. Upon confirmation from the HOA, the RU translates the request into the request form, attached along with the required documents.
4. The COO approves (or HRM in the absence of the COO).
5. Payment is disbursed by the HOA.

10.0 INVENTORY

The store unit is in charge of the distributing, procurement and storage of hospital medical consumables to other units. The unit is jointly supervised by the Supply Chain Manager and the Head of Account. In addition to the functions mentioned above which is carried out by the Store Manager (SM), he also ensures.

- Maintaining records of purchases and consumption of medical supplies and managing relationships with vendors in terms of product and price inquiries.

	Division: OH - MEDBURY MEDICAL SERVICES HOSPITAL	Document Type: SOP	Doc Level: 3
	Department: ACCOUNT	Date: 02/05/2024	Page 18 of 22

- Securing items in the stores from unauthorized access

10.1 STEPS FOR BULK PROCUREMENT/INVENTORY BUILDING

- Departments submit requisitions through the Head Nurse (HNS), who collates and approves them before forwarding to the Store Manager.
- The Store Manager conducts thorough checks, including reviewing how previous requisitions were utilized.
-
- The SM compiles a list of items running below the re-order level. The list shows the quantities available in the store, their corresponding prices (uploaded prices) and quantities to be re-ordered for each item.
- The SM sends this list to each registered vendor as a Request for Quotation (RFQ) stating the price, specification and brand confirmation.
- Upon receiving the RFQs, the SM consolidates various RFQs from the vendors into a single Price Comparison List (PCL). The prices quoted for each item by each vendors are reflected in PCL.
- HoA reviews the list with the SM and shortlists based on:
 - Cheapest prices offered for each item
 - Availability of the brand specified in the RFQs
 - Reliability of the vendors/suppliers in terms of logistics
- The reviewed list is then forwarded to the PSC for further review, who then signs off after a satisfactory review.
- The MMS Shell IA COO signs off for the SM to raise LPOs to the suppliers for the items to be brought in.
- Upon delivery of the items, SM will be on hand to take delivery of the items with a staff from the Finance or Admin to crosscheck and confirm the stated items on the delivery notes and/or invoices, then sign-off accordingly.
- The SM then records the received items in their respective bin cards by updating the quantities on the cards.

10.2 PROCESS OF ISSUANCE AND MONITORING OF ISSUANCE

- The store manager begins issuance based on the approved/ adjusted requisition from the Head of Nursing (HNS).
- The store manager checks the previous items received from the department mini-store and evaluates how they were utilized. If satisfied, issuance proceeds.
- Items requested for issuance are checked for availability in the inventory. If available, they are prepared for issuance; if not, procurement procedures are activated to fulfill the request.
- Issued items are signed off from the inventory stock card, reducing the store balance of the issued items.
- Approved requests are documented, and the inventory tracker is updated to maintain accurate records of stock levels.
- Usage patterns and trends are analyzed to forecast future demand and optimize inventory levels.
- Comprehensive records of issuance activities are maintained for auditing purposes and management review.
